Web App Development

## Profile

Results-driven Web and Mobile Developer with expertise in Flutter, React Native, HTML, CSS, and JavaScript. Over two years of experience building fast, responsive applications, including a successful internship at Grascopes Company where I optimized UI features and app performance. Developed a school web app project utilizing HTML, CSS, and JavaScript, demonstrating strong skills in clean UI/UX and scalable architecture. Passionate about continuous learning and modern development techniques.

## Employment History

### Flutter Developer, Grascopes Company

Aug 2025 – Aug 2026    Port Harcourt

Designed, developed, and optimized mobile app interfaces using Flutter and Dart, focusing on modern UI patterns, smooth interactions, and consistent branding.

Collaborated closely with the design team to translate Figma concepts into fully responsive, pixel-perfect UI components for both Android and iOS.

Contributed to key product features including multi-screen navigation, form handling, custom layouts, animations, and state management using tools like Provider/Riverpod.

Performed routine debugging, performance tuning, and device testing to ensure stability, fast load times, and a smooth user experience across multiple screen sizes.

Gained practical experience working in a real development workflow—using Git, reviewing code, implementing updates, and participating in team communication and task planning.

### Web App Developer, Aptech Project

Jan 2024 – Jun 2024    Port Harcourt

Developed a comprehensive web application for Aptech using HTML, CSS, and JavaScript, enhancing user experience and accessibility.

Implemented responsive design techniques to ensure the application was compatible across various devices and screen sizes.

Utilized JavaScript frameworks to streamline development processes, resulting in a 20% reduction in page load times.

Collaborated with peers to integrate complex features, improving functionality and user engagement by 35%.

Conducted rigorous testing and debugging to guarantee smooth operation and optimal performance.

## Education

### Aptech, Diploma

Nov 2022 — Dec 2025    • Port Harcourt

- Studied software development fundamentals including programming, networking, and mobile application development.
- Completed projects involving web development, UI design, and mobile app workflows.

## Internships

### Flutter Developer, Graspcope

Aug 2025 — Jul 2026    • Port Harcourt

- Designed and shipped clean, responsive mobile UI screens using Flutter and Dart, following modern Material Design patterns.
- Translated Figma designs into fully responsive, pixel-perfect UI components across iOS and Android.
- Worked on core app features including multi-screen navigation, forms, custom widgets, animations, and app-wide state management using Provider/Riverpod.
- Performed routine debugging, device testing, and performance tuning to improve load times, smooth interactions, and overall app stability.
- Collaborated in a real development workflow—using Git for version control, reviewing merge requests, and participating in team stand-ups and feature planning.
- Assisted in refactoring legacy code, improving UI consistency, and reducing unnecessary rebuilds to boost overall app performance.
